Frozen Formations is a collection of Ice formations as wallpapers. It has 55 icicle wallpapers with an astonishing amount of photos captured from all over the world. Frozen Formations is a collection of diverse, breathtaking and eye-catching images of icicles or icebergs captured from all over the world and gathered here in one single package. Ice, icy and Frozen – It's all about a good wallpapers theme! This theme comes with a selection of 55 astonishing images of Ice formations. From the highest mountains to the deepest oceans, the frozen wallpapers covered here show the beauty of nature in the most extreme conditions. It's not only about a good theme – it's also about many other great features as well. You can move, zoom, resize and activate or deactivate a collection of wallpapers with one click. You can choose a certain category of wallpapers by using the tree view on the left side. This feature allows you to set different categories like cloudy, tropical, desert, foggy and even the winter seasons. You can also set different date periods for a certain category of wallpapers so that they will be shown together on your desktop. In addition, you can add new categories with any of the wallpapers found in this theme. The same can be done for all other features of this awesome theme as well. You can see the names of the wallpapers and their sources in the folder where you have installed the theme. To help you find your way around a bit better, the theme comes with a help file. It lists all features, categories and the main icon which will take you directly to a specific page. To further enhance the overall user experience, you can even set specific wallpaper sizes by clicking on the settings menu which you can see on the right side.

```
package com.ctrip.platform.dal.dao.client.util; import java.util.Date; import java.util.List; public class DataStatus { private String src; private String name; private String type; private Date createTime; private List configIds; public String getSrc() { return src; } public void setSrc(String src) { this.src = src;
```

What's New in the?

The Ice Minerals is a theme designed to make your computer look like it is under the polar ice. It is a scientific theme, as you can see many scientific subjects in the screenshot. Frozen Formations Theme For Windows We spent a lot of time trying to make Frozen Formations Theme look like it is under the snow, and we think it succeeded. The theme is best suited for those with sophisticated taste and we hope that you will like it. The screenshot is also a snowy road, and you can enjoy the snow in the background. Frozen Formations Theme For Mac The screens are not a perfect match for the theme, but we are sure that you will enjoy the theme. The theme includes many accents, such as trees and icebergs. Compatible with Windows 10 and up, Mac OS Sierra and up, Linux, Chrome, Firefox, Opera, Yandex, and others. Now you can just head on to the live preview and download Frozen Formations Theme for free. Once you have finished downloading the theme, you can easily and quickly install it on your computer. This will take just a few minutes and you will be able to enjoy its incredible appearance.
