### What's New in the?

Field Agent is a powerful tool designed for law enforcement personnel to help combat crimes against children. Field Agent leverages a powerful skin tone analyzer to quickly and efficiently identify images of evidentiary value. Designed for non-technical personnel, Field Agent can be run in a few easy steps, without rebooting, troubleshooting, or dealing with a complex interface. MacForensicsLab Field Agent utilizes the USB port in order to avoid loading onto the suspect's computer. By quickly providing images relevant to an investigator's interests (typically under 2 minutes), MacForensicsLab Field Agent is an invaluable tool to all law enforcement. Field Agent also has the ability to export files of interest or generate an HTML report with thumbnails, path and date information of any or all files. MacForensicsLab Field Agent Features: Skin Tone Analysis Tool Field Agent leverages a powerful skin tone analyzer to quickly and efficiently identify images of evidentiary value. Powerful User Interface All users can be trained in a short period of time without the need for a computer science degree. Ease of Use Runs in a few simple steps, without rebooting, troubleshooting, or dealing with a complex interface. USB Port Delivery Field Agent can be used to deliver the suspected images directly to a USB port on a suspect's computer. Extensive Training Field Agent can be run by any level law enforcement, without need for computer science degree or specialized knowledge of the Mac OS. A Note about Parental Control Software If using Parental Control software to restrict access to sites containing images of child pornography and images of suspected child sexual abuse, make sure that you are blocking Field Agent from accessing USB ports. Field Agent is designed to be run by non-technical personnel to meet the needs of law enforcement. This software does not integrate with parental control software. File Scanning in Seconds Field Agent is a powerful tool for law enforcement personnel to help combat crimes against children. Field Agent leverages a powerful skin tone analyzer to quickly and efficiently identify images of evidentiary value. Designed for non-technical personnel, Field Agent can be run in a few easy steps, without rebooting, troubleshooting, or dealing with a complex interface.
