The Pen tool lets you use a digital pen to draw over an image. It's often used to create text or shapes. The Magic Wand is Photoshop's nondestructive Magic Wand. It allows you to select an area by the color, shape, or density of pixels. The Type Tool lets you create text within a drawing. This is a great tool for designing logos or illustrating a scene. The Image Trace is similar to the Magic Wand, but it's designed to select pixels by shape. The Bevel and Emboss lets you create a three-dimensional look for images. You can use this tool to add a wood texture to artwork. The Brush Strokes lets you apply a texture to an image. You can use this tool for abstract art and collages. The Healing Brush lets you quickly repair scratches and other defects in an image. You can make brush strokes appear and disappear, also known as feathering. The Lens Flare Filter creates an unnatural, blurry light effect. You can use this effect to draw attention to an image. The Smudge tool is used to apply a random texture to an image. It can also be used for abstract art. The Burn tool is used to selectively lighten or darken an area of an image. The Masticate Filter lets you apply distortion to create optical effects. You can use this filter to make images look like old photographs. The Shuffle feature uses an algorithm to randomize a set of options. It's useful for saving time while designing, because you'll have more options. The Brush Adjust function allows you to fine-tune brush settings. You can even change brush size, hardness, and spatter. The Dividers feature lets you separate your drawing into a grid. It's often used to align your artwork. The Lens Blur lets you apply a blur effect to a drawing. It's similar to the Masticate Filter, but it's less precise. The Lens Distortion lets you create a photo-like blur effect for your artwork. You can create either a modern, retro, or cartoon look. The Brush panel offers a variety of tools, including the Smudge, Masticate, Clone, Dividers, Mop-Up, Filter, and Lens Blur. The Layers panel includes the background color, layer mask, and layer styles. The Background panel has the color,

Eraser Tool The Eraser Tool is a combination of both the Eraser Tool and the Selection Tool. This allows you to remove an area or specific pixels from a picture. The Tool also gives you the option to turn the pixels on or off. The Spot Healing Brush Tool works in a similar way as the Healing Brush Tool. In addition, it has the ability to search for nearby pixels that match a particular color.
