keyMacro is a simple chrome extension for your keyboard. It allows you to make macros: - Key combinations on your keyboard to speed up your browsing (ex: CTRL+F for searching). - Fast access to any URL with only few keystrokes (ex: click your mouse on a shortcut). This add-on is also included in the paid version. It is a full featured extension for Chrome (you need to pay to have it). It offers you unlimited access to the key combinations and shortcuts. Keyboard shortcuts are really powerful to speed up your surfing. They can save you a lot of time and the consequences of your mistakes. In fact, keyboard shortcuts and Google Chrome extensions can replace many operations performed in your browser (copy/paste, save, go back, etc.). This extension can give you access to all your favorite keyboard shortcuts, and all Chrome extensions that are available on the Chrome Web Store, but also install custom shortcuts with your own configurations. **KEYMACRO:**

Keyboard shortcuts are already widely used in almost any OS, because they help for the typing of text. You can also use this chrome extension to create shortcuts for any Google Chrome extension (shortcut that you can see by hovering the extension on the extensions tab in your browser). KEYMACRO is also compatible with Firefox (Firefox also offers the possibility to use keyboard shortcuts, but this extension is not yet included in the extension section). Once installed, you can see the shortcuts bar on the top of the browser window. On it, you will find buttons that allow you to select the extension you want to configure. You can even assign your own shortcuts, if you want. How to use KEYMACRO: Keyboard shortcuts are really powerful to speed up your surfing.
