## System Requirements:

\* Pentium III 800 MHz or faster \*  
Windows XP, Windows Vista,  
Windows 7, Windows 8 \* 2 GB RAM  
or more Installation If you use the  
Windows installer, you don't need to  
do anything. Just install the game and  
you should be able to play. If you use  
the game launcher, you have to move  
the gamefiles to a place where Steam  
can find them. For Windows users,  
this usually means creating a folder  
called games in your Steam folder.  
For Mac users, you can use the  
Steam app to
