The release date for the newly announced Let Loose DLC is 10th of October; however, we here at TGP DIDN'T want you to wait... which is why we've compiled everything you need to know about the title in a single place. First things first, you'll need to download the new DLC for free if you haven't already. If you already have the game then you will be prompted to install the update and not the DLC. You'll also be given the opportunity to install the DLC at a later date. You'll know if the update has been installed (and if you've installed the DLC) because your app icon will now have a thunnbot symbol in the date area on the bottom. Clicking on the red bot will bring you straight to the gameplay trailer. We've got a quick guide for you below! Lots of fun Tina Lian - October 6, 2016 at 8:34 am Lots of fun boss! And for this news to be confirmed so quickly is already amazing. Ben - October 6, 2016 at 8:43 am (Or) said trailer was a fake to mislead people into thinking something else was happening. Bloak - October 6, 2016 at 8:48 am Wait, let loose is not out yet? This is very disappointing. I hoped this would be as easy as the first one. USgamer - October 6, 2016 at 6:29 pm When the Let Loose campaign was cancelled, it was heavily implied that the game wouldn't get an ESRB rating. The latest developer update stated that a "more appropriate age rating" was being considered. Is the new content going to change what the ESRB ratings will be? Bloak - October 6, 2016 at 6:29 pm And if you really want a real let loose
