There are a few versions of the movie game on PC.Q: Grails spring security 3.0.1 redirects to login path after accepting once application I am new to Grails. Here is my problem. In a Grails 2.0.4 application I have two resources defined as follows class

---

```
AsstDataController { def attrStudent = {
  redirect uri:"/auth/register", params:params,
  encode: false } def query = { redirect
  uri:"/auth/register", params:params, encode:
  false } }
```

When I run the application and access them with out any security, it works perfect. But after I accept the application, redirection url changes to the default login path. How to fix this? A: According to the Grails Users Guide to Security Be sure to take the appropriate steps to handle users that may have already logged in to your application. For example, if a user was already logged in to your app and the user is redirected to the login page, we redirect the
