Norton.Q: How to change screenshot name based on date on Windows? I would like to change the name of a screenshot, based on the date it was taken (as opposed to the file name only being unique to the file). The documentation seems to suggest the ability to change a file's name (but I've been unable to do this. A: Finally found an answer:
%WINDIR%\System32\runas.exe /user:domain\username cmd.exe /c powershell -ExecutionPolicy Bypass -Command "Get-ChildItem -Path 'C:\Temp'
