----- Visual Novel Maker (VNMaker) is a Visual Novel Maker that makes Visual Novels! VNMaker is easy to use because it lets you finish production, testing, and uploading VNMs to popular game portals all at once, and doesn't require any setup or maintenance. By using VNMaker, you can produce Visual Novels without wasting any time, and you don't need any special skills. VNMaker is easy to use, so that anyone who has some basic knowledge of the internet and video game portals can complete a VN from start to finish within a day. \*The VNMs of this "Collection" include two very early VNMs that were developed using the VNMaker. \*There are 16 VNMs in the collection. The VNMs included are all ones that I made on my own, but I'm not an expert on the field of VNMs. \*The VNMs don't contain voice actors. The VNMs have only text. In the future, I'll make VNMs that also have voice acting! The visuals used in this "Collection" are all self-created. Please let me know if there is any problems with the visuals.
