Q: Using dates for a loop to produce a date range in Excel I have created a formula in Excel that uses a date in cell I5 to move to the end of the month. The end of this month is reached by using the formulas below.

```
INDEX(T5:T$5;MATCH(0;T5:T$5=I5;0);0)
```

This formula will move to the end of the month, which is fine and it is the end date for the current month. But what I need to do is change the end of the month to a date a week before the end of the month and repeat this until the end of the month.

This is because the start date will be one week before the end of the month so I need to make sure all this is worked out. I have added the start date to cell A2 and I am trying to use the looping formula in cell I5. So I have: `SUM(IF(' c9d1549cdd`

What's new in FSX: Steam Edition - Northrop F-5E Tiger II Add-On:

The first expansion of the Mists of Pandaria philosophy for Warcraft III: Reforged has come and gone, packed with three valuable new heroes, three similarly valuable new sets of weapons and armor, as well as a new set of building and customization options. Now that we've gotten a look at all of the exciting new possibilities, or at least the most important aspects, it's time for us to take a look at the pros and cons of how the options are implemented, and to look for where possibly there can be room for improvement. About Our Methodology For the purposes of this article, we will be looking at how the systems to acquire Hero Talents, Hero Gems, Unique Weapons and Unique Armor in Mists of Pandaria were implemented. While we won't be looking at basic Item level numbers, we will be including all abilities and attributes in the calculations. Since not all characters will be created equal, some will have more options than others. Additionally we will be looking at Core Set version of Heroes, considering that changes are likely to be somewhat similar when compared to vanilla Heroes. Click to enlarge. As a note on a few of the screenshots, we must apologize. Also, feel free to skip the bottom two tables above if you'd like. Top 2 Characters For Each System from MoP's Bestiary - Sword and Dragon talents. The two most important trades in Mists of Pandaria are those involving Healing Talents and Weapon Talents. They can be seen as a "ceiling" and a "floor" of certain potential. As you can see in the table above, the Hero Gems and Hero Talent only last for 25 actions. Think of that as 10 Hero Caps for a new player and you'll see that it's not much. Time Tier Power Tier Character Buff- 6 Talent Buffs- 6 Gemp Buffs- 2 Invite Buffs- 2 Armor Buffs- 0 Runes Buffs- 0 Tier II Efficiency Matters aside, the "Hardest Tier" to get from each means that you'll either need to play a lot of League to level up those low stat talents, or play a lot of ranked to earn Tokens. Which is fine, it is obviously desirable to complete the content while earning as many items as possible. How Your Heroes Will Acquire Hero Gems and
