As we have an Exception Unhandled event in order to get Default handler, we have to register an event handler like: /// /// Required method for Designer support - do not modify /// the contents of this method with the code editor. /// /// [SupportByVersion("Word", 10,11,12,14,15,16)] void ListenerMethods.DefaultHandler(System.Object e) { throw new UnsupportedException("Default Handler Expected"); } Is there any way to get Default Mediator Exception Handler? A: When you register an event handler for an event, the event handler itself is registered with SystemEvents with a specific event ID, and the event handler is given a unique ID. In your case, the event id for the MediatorException event is Wd.MediatorException. This is only available when the Word application is installed in the Local System account. You cannot get a pointer to the event's Default Handler. You can add your own event handler for the MediatorException event, for example: Private WithEvents _ex As SystemEvents Private Sub UserForm_Initialize() Set _ex = New SystemEvents _ex.AddEventHandler Me.MediatorException, _ AddressOf MediatorExceptionHandler End Sub Private Sub MediatorExceptionHandler() Dim e As Exception e = CType(Me, IWordMediatorExceptionEventHandler).OriginalException If e IsNot Nothing Then c9d1549cdd

Return this card to your deck. (void ability):When you play this card, choose 2 cards in your opponent's hand to return to their deck, put the rest on the bottom of your deck in any order. Your opponent chooses which 2 cards you return to their deck. They can not choose cards from your hand (thanks, Shallan), and you cannot return cards on top of your deck. (void ability):You can only return 1 card from your hand this way. You can't move any of your cards to the bottom of your deck. (2 cost): When you play this card, you may return a card from your opponent's hand. This card is very valuable as you can use it to combo with Bolster, but, unfortunately, as it is committed to the field, you have to play it on the first turn of the game. Since you can't play Fan of the Wading Deer to declare your plays this turn, this card won't be as effective after the first or second turn. Box7 Riddleform Cost: 20AP, 30BP Type: Divine / Prophecy Card text: 10: Choose a card in your opponent's hand: You gain 5BP. Their hand cannot have any cards that are below 5 cards on the field (thanks, Kiora). 2: Whenever you play a card, you may move it to the top of your deck. 3: Whenever you play a prophecy during a turn, play a temporary source 2 from your discard pile instead. (void ability):When an effect states this source is not temporary, this source is changed to a permanent source. 4: Exile this card from play. If you control no effects that would cause you to lose all permanents, return this card to your deck.
