## AutoNestv9xxCrackrar \_\_HOT\_\_

joestel.html. 99e5ef82801. AutoNestv9xxCrackrar. d9c36b66b69. AutoNestv9xxCrackrar. 6 / 6.Q: Search MySQL database with LIKE "javascript:void(0)%". PHP server I have a search form with PHP. When I search, the my query work fine if I type the word directly in the search bar. But I want to search the whole text in the db with LIKE "javascript:void(0)%". The MySQL query with LIKE "javascript:void(0)%": \$query = "SELECT \* FROM mytable WHERE word\_inside LIKE 'javascript:void(0)%' "; If the I type with ONLY mysearch form the whole text with LIKE "javascript:void(0)%", the query doesn't return nothing. \$myquery = "SELECT \* FROM mytable WHERE text\_in\_db LIKE '%mysearchform%'"; If I combine the two query, the query works fine. I have tried MySQL MySql functions but it is not working. I have also tried replace("javascript:void(0)%", "%", "%", "javascript:void(0)%"); with str\_replace("javascript:void(0)%", "%", "%", "javascript:void(0)%"); Any help will be appreciated EDIT: For better understanding: myform textfield: "www.test.com,www.test.com" query for the string: "SELECT \* FROM mytable WHERE word\_inside LIKE '%www.test.com%' " - // works query for the string: "SELECT \* FROM mytable WHERE word\_inside LIKE 'javascript:void(0)%' " - // not working A: Change your query to "SELECT \* FROM mytable WHERE word\_inside LIKE '% ' || mysearchform || '%'" EXPLANATION You can use the concatenation operator || to create a string that is the concatenation of two other strings. This would look like this: "abc" || "def" // outputs "abcdef" "abc" || "" // outputs "abc" "" || "def"
