Synopsis: Manny, Diego and Sid embark on a new adventure after their continent goes with the flow. Using an iceberg as a ship, they encounter sea creatures... And that's where the fun begins... It is not entirely clear what the creators expected from the film. In theory, their goal was to entertain the audience and make a comedy, but how to do this if there is not a single below-the-belt joke in the film? The creators are trying to joke somewhere in the middle of the film, but it looks completely inappropriate and even ridiculous. All jokes and gags come down to sex, kissing and nudity. And all this is so stupid and primitive that even just right. Therefore, the film can be safely skipped.
