Hey there I am looking for the version of

AutoData that works for windows 7 and know the autoData version for windows 7 32 bit or 64 bit. I am using the build 2141 and I dont know the version number for the 64 bit version. At the time that I have been searching, I have found the version 2140 works for 64 bit but I dont know what to tell if you dont know. I would appreciate if you could help me. I downloaded a game auto data from the official website of the game I didnt understand the meaning of the autodata so I downloaded the 2.1 build 150 of it. I dont know if its the best version. I cant use the original one as the game doesnt work as it should. I have heard there is a version of auto data that allows to add credit cards from windows 7 64 bit, but no way to find it. I have searched the internet but I didnt find any tutorial.
