**Iphigenia, Phaedra And Athaliah (Penguin Classics) Books Pdf File**

this novel is a fictional interpretation of a true story: the story of sarah bernhardt. departing from her theater a year early in 1905, she leaves paris for new york, a city she never intended to visit. she arrives in new york not knowing anyone and with a hundred and fifty dollars, which she had saved for twenty years. she has been asked to perform in new york and seems to play the role of the repentant sinner. the story alternates between this protagonist and her son oskar, both of whom are intensely concerned about her new identity. they find themselves entangled in a dramatic life filled with theatrical events, in the midst of which they live to tell the tale, at times in the intimate details and at other times in tantalizing glimpses. throughout their journey, the two protagonists run into a host of theatrical people, among them sarah bernhardt's contemporary, the famous american actress of that time, sarah morgan. this was the first of the series to have isbn's assigned to it. the reason for the discrepancy is that between the first and second volumes of the phaedra series, the second

---

edition used the same isbn numbers as the third edition, and the third used the same numbers as the first. in the second edition, the hardcover was changed from slimmer to heavy-duty with a larger spine and a different endpaper. the slipcase, which originally had the same isbn number as the hardcover, got a new one in the second edition. this is the first book in the series to have a new isbn assigned to it. now that i have had a good opportunity to read it in translation, i do not think this is such a bad thing. i am a little bit suspicious about the translation of some of the plays into english and a little disappointed with others.
