
Sonokinetic.Qanun.KONTAK T-SYNTHiC4TE

The originality of the native instrument of the Sonokinetic package is the use of multiple round robins and keys which shift the root key, and allows the player to be more expressive and expressive in the phrase of the music. For example, when the root key is held down in a key phrase, the Kontakt key can be shifted to a different key as it can be done with a MIDI performance. That's why this library is called QANUN, a repetition of the word Kontakt. The complete Sonokinetic QANUN library package with all samples is available for only US\$ 299, which is a very generous price and we are sure that anyone would appreciate this divine sound in their music. Qanun is available as two versions, one for both Kontakt 4 and 5 and for standalone Kontakt 5. The latter is a retail program, which means that you will have to buy the preamp in order to afford the instrument. As with most Sonokinetic instruments it's quite easy to learn and can even be played right away. You can also use step sequencers and work with multiplexing at a sample rate of 48 kHz. The samples were recorded in high quality studio at Sonokinetic's headquarters in the Middle East. After professionally mixing and mastering the sounds, the library also has its own Artist preset in Sonokinetic's own Sampled Instruments host software called XPazz, which has an automatic sampler and sampli-mixer. XPazz also saves samples as Wave, WavPack and CCR formats. All the samples in the library were recorded using the acoustic instrument itself. As mentioned before, a polyphonic synthesizer on the string of a musical box is connected to the shank, which is steel and has a square metal plate on the top that plays all notes when pressed, triggering the root note. This is a unique instrument in musical boxes, and it is a unique sample of a musical box. Other than polyphonic synthesizers, there are also strings that are monophonic and it is possible to play these with the Kontakt keyboard as well. An example of the monophonic sound is below:

Sonokinetic.Qanun.KONTAKT-SYNTHiC4TE
