titan quest: ragnarok and titan quest: atlantis are tremendous additions to the game. they add new content in both the form of new classes and lands to explore as well as new areas. but despite being 20 years later, titan quest: immortal throne is the best of the three, and worth getting if you haven't played the first game. it

brings everything you loved about the original dlc's to a whole new generation of players. {steam_clan_image}/7564111/b1c8e6f590147b3a49a4947a30b3d079ecb9ddd0.png the villain of the game is back and he's not happy, step up your strategic attacks on the diabolical titan in titan quest! the storyline and lore of titan quest expands with each new installment, with the fourth chapter of

titan quest serving up a variety of new features, great bosses, new items, and new monsters! new features game now features dungeons to explore with 3 new dungeons, each with 3 keys to unlock; a new electrum transmuter shrine, that allows to gain electrum currency when monsters are killed; there are new sets of gear; new random dungeon, with a number of different monsters; new
