kindergarten through third grade, plus a sample lesson from fourth grade, this edition offers comprehensive, easy-to-use information on teaching reading and writing in the classroom. it helps teachers to implement a comprehensive model in their own classrooms and to provide a systematic approach to instruction that helps students master the fundamental skills needed to read

and write. a thorough guide to the use of research-based reading programs, and details on teaching languages at each grade level. including a section on the importance of student choice and the importance of writing instruction. sometimes i find it's really difficult to find a good book to read. but, at the end of the school year, as my students are looking for something to read, i send them to classroom2go. classroom2go is a series of online book-reading apps

that enable teachers to create and manage reading lists for their students. classroom2go's mission is to help students read and to help teachers increase student engagement and motivation to read. the app is free to use and easy to set up. teachers can create a list of books for students to read. students can read books on their own time. teachers can follow the progress of their students. the app allows teachers to search through books by theme, title, grade level, category,

or other criteria. the list of books that students have already read is also searchable. if the book is already in the school's database, it can be marked as "imported". once a book is imported into the school's database, it can be viewed and purchased in the app. the text of the books can be read as "flipped", meaning the text is read from the left-to-right side of the page. the books are aligned with standards for reading. this makes the texts easier to read and helps students become

more familiar with the material and the type of reading they need to be successful. 5ec8ef588b
