The research findings suggest that an increase in the use of pirated software will create a burden on the participants. The results show that most of the participants do not have any idea about the economic benefits of software piracy. Most of the people do not know about the legal requirements of the software. Many people do not believe that they are aware of the demerits of pirated software. Many people do not care about the demerits of software piracy, and many people are not aware of the penalties that are imposed on them while being engaged in piracy. So, the participants do piracy. The findings show that an increase in the use of pirated software will create a burden on the participants. Piracy has increased over the past years. It was found that more than half of the respondents (60%) believe that they are able to use the pirated software with no restrictions. More than half of the sample population have used the pirated software for their needs. Only few people have been caught while doing piracy and only few people have been taken to court for piracy. There is no suitable method to stop piracy. People have started to do piracy to get what they want. Piracy is causing loss to the software industry. People are aware of the penalties that are imposed on the people for software piracy. Most of the people do not know that they are committing a crime while doing piracy. The above results show that the Dynamics Nav Developer License Key enables the growth and fast transaction of the business process.
