i have been working on this great tool, and it is live! i have been working on getting this finished for a very long time, i plan on making

this a permanent vpn solution. if you would like to play with it before its live, let me know. if you plan on playing with it after its live just say the word and i will share with you how to uninstall it. 1.you need to install first the windows installer (msi) tool 2.open the downloaded zip file and extract the folder, move all the files to a location where you can access them 3.run the.bat file, or if using the.msi file, just double click on it 1.run the same.bat file that you ran to install it, and set it to run when windows starts. it will give you the option of uninstallation. if you do not want to uninstall, just skip that step. if you

do want to uninstall, just close the.bat file and it will uninstall. 2.if you have not already done so, unzip the folder in step 2 3.move the folder back to the location where you installed it. run the same.bat file that you ran to install it, and set it to run when windows starts. it will give you the option of uninstallation. if you do not want to uninstall, just skip that step. if you do want to uninstall, just close the.bat file and it will uninstall.

While some free VPNs are easy to use and useful, most of them don't have great performance in their free versions, and to be honest, most of them lack the VPN features that you might want to use. A VPN app that's easy to use, has a great user interface, and packs in all the features you'll need for a wide range of tasks is... <https://the-gift.eu/simplevpn-free-windows-vpn/> <https://lentverco.yolasite.com/betternetvpnforwindows443premiumwithcrackfullversion-how-to-search-for-ima>
