identification and expression analysis of the FtsK orthologues (FtrK) in *Bacillus subtilis*. FtsK is a crucial protein for correct assembly of the bacterial division machinery and therefore important for cell division. FtsK has already been identified and characterized in many organisms such as *Escherichia coli* and *Bacillus subtilis*. Recently, also several FtsK homologues have been identified and characterized

in other organisms. The focus of this work is to investigate the presence and function of f988f36e3a
