This is post about Magic Bullet Suite v2.1 for After Effects - Premiere [RH]. And.An inverted pendulum model for the assessment of human balance in high-risk patients. In order to assess the risk of falls in high-risk patients, a high-risk group of elderly people was identified by screening a database of patients treated in a geriatric rehabilitation centre. We examined the balance of these patients by comparing the center of foot pressure (COP) with the Center of Mass (CoM) and with the neutral position in standing. It appeared that the weighted CoM in patients was significantly smaller than in the average population. However, as the CoM in the patient group is calculated using the value of CPO, the pathological reduction in CPO appears to be compensated by a pathological enlargement in the CoM.[Human Papillomavirus: a new target for prevention and
